What is this product?

Type: Shares of a sub-fund of MULTI UNITS FRANCE, a UCITS (Undertaking for Collective Investment in Transferable Securities), established in the form of a SICAV.

Term: The product has a duration of 99 years. The Management Company may dissolve the product by means of liquidation or merger with another product in accordance with legal requirements.

AMF Classification ("Autorité des Marchés Financiers"): Eurozone country equities

Objectives: The Fund is a passively managed index-based UCITS. The Fund's objective is to replicate, both upwards and downwards, the performance of the FTSE Italia PMI Net Tax Index (net dividends reinvested) (the "Benchmark"), denominated in euro (EUR) and representative of the performance of the shares of small- and mid-cap companies listed on Borsa Italiana, while minimising the tracking error between the Fund's performance and that of the Benchmark.

The expected level of the tracking error under normal market conditions is indicated in the Fund prospectus.

The shares of the Sub-fund are included in the list of investments eligible for the "Piano Individuale di Risparmio a lungo termine" (PIR) regime, implemented before 31 December 2018 or from 1 January 2020, pursuant to the Italian Finance Law 2017 (Law No. 232 of 11 December 2016) as amended and supplemented (the "PIR Law").

The Sub-fund must invest at least 70% of its assets in eligible financial instruments, regardless of whether they are traded on a regulated market or a multilateral trading facility, issued by or entered into with companies domiciled in Italy, or in a Member State of the European Union or of the EEA with a permanent establishment in Italy.

At least 25% of these eligible financial instruments, which corresponds to 17.5% of the total value of the Sub-fund's assets, must be issued by companies not belonging to the FTSE MIB Index or any other equivalent index. At least 5% of these eligible financial instruments, which corresponds to 3.5% of the total value of the Sub-fund's assets, must be issued by companies not belonging to the FTSE MIB Index and the FTSE Italia Mid Cap Index or any other equivalent index.

The Sub-fund may not invest more than 10% of the total value of its assets in eligible financial instruments issued by or entered into with a single company, or companies belonging to the same group, or in cash deposits.

The Sub-fund will not be able to invest in companies domiciled in countries that do not have an adequate information exchange agreement with Italy.

In order for the Sub-fund to be eligible for the PIR Law for one calendar year, these investment restrictions will be respected at least for two-thirds of each calendar year from 01/01/2020.

More detailed information on FTSE indices is available on the FTSE website (www.ftserussell.com).

The Fund aims to achieve its objective through direct replication, namely by investing primarily in the components of the Benchmark.

In order to optimise Benchmark replication, the Fund may use a sampling technique as well as temporary sales of securities.
