What is this product?

Type: Shares of a Sub-Fund of AFP UCITS ICAV, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as an ICAV.

Term: The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives: The Sub-Fund seeks to achieve capital growth through investment in a portfolio of global equities issued by companies that have the potential to create value while having a positive impact on global sustainability in accordance with Article 9 of Regulation (EU) 2019/2088 ("Sustainable Finance Disclosures Regulation"). The Sub-Fund invests mainly in equities and equity related securities (such as common stock, depositary receipts and preferred shares) listed or traded on a permitted market that are issued by companies that seek to create value from products, services or operations which have a positive impact on particular sustainability themes (as listed below). These companies will represent a broad range of sectors and industries and may be located anywhere in the world.

A maximum of 30% of the Sub-Fund's net asset value may be invested in the equities of companies that are domiciled, listed or traded in an emerging market country defined as an "Emerging Market" by the MSCI World Index (the "Index"), and up to 10% of the Sub-Fund's net asset value may be invested in securities listed or traded on the Moscow Exchange.

The Sub-Fund may hold cash and instruments that may be readily converted to cash (such as cash deposits, treasury bills and investment grade government bonds). In normal market conditions, such investment shall not exceed 20% of the Sub-Fund's net asset value.

The Sub-Fund may use derivatives such as futures, forward and options for efficient portfolio management purposes only. The Sub-Fund is actively managed. The Index serves only as an indicator for assessing the Sub-Fund's performance. The Sub-Fund's portfolio is not limited to, or constrained by, the constituents of the Index. The Sub-Fund has not designated the Index as a reference benchmark for the purpose of the Sustainable Finance Disclosures Regulation. Firstly, companies operating in areas such as weapons production, fossil fuels, tobacco and gambling are excluded from the Sub-Fund's investment universe.

Following these exclusions, Gulf International Bank (UK) Limited, the Sub-Fund's investment manager (the "Investment Manager"), uses a bottom-up analysis in order to integrate fundamental environmental, social, and governance ("ESG") factors to identify companies that have a positive impact on particular sustainability themes such as healthcare, education, nutrition, transport safety, clean energy, e-mobility, resource efficiency and water.

The Investment Manager will rely on its own proprietary research and 3rd party research to identify recognised global sustainability challenge such as those contained in the United Nations Sustainability Development Goals, these are the "sustainability drivers". The sustainability drivers are used to identify particular sustainability themes and are then integrated into the Sub-Fund's management process.

The above ESG analysis in addition to other factors such as governance practices are used to complete the analysis of each company which allows the Investment Manager to produce its own forecast of the company's future earnings and valuation, together (where possible) with an assessment of the positive ESG impacts associated with those forecasts.

Intended Retail Investor: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment and to receive income while preserving some or all of the capital invested over the recommended holding period with the ability to bear losses up to the amount invested.

Redemption and Dealing: Shares may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the AFP UCITS ICAV prospectus.

Distribution Policy: As this is an (AD) distributing share class, investment income is distributed annually.

More Information: You may get further information about the Sub-Fund, including the prospectus, and financial reports which are available at and free of charge on request from: Amundi Ireland Limited at AMUNDI IRELAND LIMITED, One George's Quay Plaza, George's Quay, Dublin 2, Ireland. The Net Asset Value of the Sub-Fund is available on www.gibam.com

Depository: Société Générale S.A., Dublin Branch.

What are the risks and what could I get in return?

RISK INDICATOR

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the AFP UCITS ICAV prospectus.

PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Sub-Fund over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

What happens if Amundi Ireland Limited is unable to pay out?

A separate pool of assets is invested and maintained for each Sub-Fund of AFP UCITS ICAV. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from those of the Management Company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10,000 is invested.
