What is this product?

Type: Shares of a Sub-Fund of SEB Umbrella PLC, a Public Limited Company.

Term: The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives: The Sub-Fund is a financial product that promotes sustainable investments, within the meaning of article 9 of SFDR (Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector).

The Sub-Fund is an active UCITS and is not managed in reference to a benchmark

The investment objective of the Sub-Fund is to seek capital appreciation over the medium to long term.

The Sub-Fund seeks to achieve its investment objective by allocating its assets across various long only equity investment strategies which are proprietary to each Sub-Investment Manager, the Investment Manager and/or the Co-Investment Manager (the "Equity Investment Strategies"). Each of the Equity Investment Strategies will be implemented by a Sub-Investment Manager, the Investment Manager and/or the Co-Investment Manager with respect to a Trading Portfolio.

The Equity Investment Strategies that the Sub-Fund will obtain exposure to, and the allocation to each of those, are determined by SEB Investment Management AB acting as Investment Manager of the Sub-Fund.

The Equity Investment Strategies that the Sub-Fund may obtain exposure to are proprietary long-only strategies providing exposure primarily to global equities (including emerging markets) listed and/or traded on Recognised Markets, without any specific geographical, sector or market cap focus.

The Equity Investment Strategies will focus on generating financial returns with the intent to contribute to positive social, economic and/or environmental impact themes (such investment approach known as "Impact Investing"). Impact Investing can be divided into different impact themes, which are aligned with, for example, the United Nations' Sustainable Development Goals (SDGs) ("Impact Themes"). Such Impact Themes include (but are not limited to): water availability (improving access to quality water supply and preservation of the resource), sustainable energy (transition towards affordable and clean energy), food and agriculture (ensuring a sustainable food supply), resource efficiency (enhancing resource efficiency and waste reduction) and social improvement (enhancing society's needs such as but not limited to safety, education, health and wellbeing). The Equity Investment Strategies will be implemented by gaining exposure to companies whose products and services positively contribute to these Impact Themes.
