Objectives: This Sub-Fund is passively managed.

The objective of this Sub-Fund is to track the performance of FTSE Eurozone Lowest-Rated Government Bond IG 1-3Y Index, and to minimize the tracking error between the net asset value of the Sub-Fund and the performance of the Index. More information about the composition of the index and its operating rules are available in the prospectus and at: www.ftserussell.com

The Index value is available via Bloomberg (EMTSIA5).

The exposure to the Index will be achieved through a Direct Replication, mainly by making direct investments in transferable securities and/or other eligible assets representing the Index constituents in a proportion extremely close to their proportion in the index.

The Investment Manager will be able to use derivatives in order to deal with inflows and outflows and also if it allows a better exposition to an Index constituent. In order to generate additional income to offset its costs, the Sub-Fund may also enter into securities lending operations.
