

AMUNDI ETF ICAV

An open-ended Irish collective asset management vehicle which is constituted as an umbrella fund with segregated liability between sub-funds and with variable capital. The ICAV was registered under the laws of Ireland with registered number C461194.

ADDENDUM TO THE PROSPECTUS

15 September 2022

This Addendum contains specific information in relation to the following sub-funds of the Amundi ETF ICAV (the **ICAV**):

1. Amundi US Tech 100 Equal Weight UCITS ETF; and
2. Amundi MSCI USA ESG Leaders Extra UCITS ETF.

This Addendum is supplemental to, forms part of and should be read in conjunction with, the prospectus for ICAV dated 18 July 2022 (the Prospectus).

The Directors of the ICAV whose names appear in the section entitled "Directors of the ICAV" of the Prospectus accept responsibility for the information contained in this Addendum. To the best of the knowledge and belief of the Directors, who have taken all reasonable care to ensure such is the case, the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

Words and expressions defined in the Prospectus shall, unless the context otherwise requires, have the same meaning when used in this Addendum. For the purposes of interpretation, in the event of any conflict between this Addendum and the Prospectus, any such conflict shall be resolved in favour of this Addendum.

PURPOSE

The purpose of this Addendum is to update the Prospectus to include descriptions of Sub-Funds in the section entitled "Sub-Fund Descriptions" and to make certain other related amendments to the Prospectus.

Amundi US Tech 100 Equal Weight UCITS ETF

Investment Objective and Investment Policy

Sub-Fund: Amundi US Tech 100 Equal Weight UCITS ETF (the "Sub-Fund")

Index: Solactive United States Technology 100 Equal Weight Index (the "Index")

Investment Objective

To track the performance of the Index.

Index Description

- General description of the Index

The Index is an equity broad-based, equal weight index that measures the performance of the largest 100 companies from the NASDAQ Stock Exchange. The Index is a net total return index, meaning that dividends net of tax paid by the index constituents are included in the Index return.

- Index currency: US Dollar
- Index Composition

The Index universe comprises stocks listed on the NASDAQ Stock Exchange with a country of primary listing in the United States and fulfilling tradability requirements. Securities which are assigned to the "Finance" Economy, as defined by the Standard FactSet Classification, are excluded from the Index universe.

Securities in the Index universe are sorted by full security market capitalization in descending order. Each security is assigned a rank based on the position in the sorted list, e.g., the security with the highest full security market capitalization is assigned rank 1. All securities ranked in the top 85 are selected as Index components. Current Index components with a rank from 86 to 120 are added to the Index until the total number of stocks in the Index reaches 100.

The Index constituents are equally-weighted.

- Index Revision

The Index rebalancing is planned quarterly.

- Index Publication

The Index is calculated and published by Solactive.

The Index is calculated by Solactive using the official closing prices of the stock exchanges on which the component securities are traded.

The Index value is available via Bloomberg. At the date of the prospectus, the ticker is: USTE100N

The performance tracked is the closing price of the Index.

The Solactive index methodology, composition, revision rules and additional information concerning the Index underlying components are available on www.solactive.com

Management Process

The Sub-Fund is managed according to a passive approach and the exposure to the Index will be achieved through a direct replication, mainly by making direct investments in transferable securities and/or other eligible assets as further described below representing the Index constituents in a proportion extremely close to their proportion in the Index as further described in the section entitled "Replication Methods for Passively Managed Sub-Funds" of this Prospectus. With the exception of permitted investments in OTC option and swap financial derivative instruments (as further described in "Techniques and instruments on securities and Derivatives" below) and cash, the Sub-Fund's investments will be equity and Equity Linked Instruments which will be listed and traded on Regulated Markets.

The Sub-Fund will not hold any securities of companies involved in the production or sale of controversial weapons as defined in "Replication Methods for Passively Managed Sub-Funds".

Tracking Error

The tracking error measures the volatility of the difference between the return of the Sub-Fund and the return of the Index. In normal market conditions, it is anticipated that the Sub-Fund will track the performance of the Index with a tracking error of up to 1%.

Techniques and instruments on securities and Derivatives

In order to deal with inflows and outflows and also with some equity local market specificities (including market access, liquidity or local tax issues); the Investment Manager may invest in futures, options and swaps which are referable to equities which are comprised in the Index or are otherwise consistent with the Sub-Fund's Investment Objective. In this instance, the Sub-Fund may hold deposits while maintaining full exposure to the Index.

The Sub-Fund may enter into any efficient portfolio management techniques and instruments relating to transferable securities and money market instruments, such as securities lending arrangements and reverse repurchase and repurchase agreements for the purposes of efficient portfolio management as described and in compliance with the sections entitled "Techniques and Instruments on Securities Financing Transactions" and "Replication Methods for Passively Managed Sub-Funds" of this Prospectus. In particular, such techniques and instruments may be used in order to generate additional income for the Sub-Fund.

The maximum and expected proportions of the Sub-Fund's assets that may be subject to SFTs are disclosed in the table entitled "Use of Securities Financing Transactions and Total Return Swaps".

Base Currency : US Dollar

AMUNDI MSCI USA ESG LEADERS EXTRA UCITS ETF

Investment Objective and Investment Policy

Sub-Fund: Amundi MSCI USA ESG Leaders Extra UCITS ETF (the "Sub-Fund")

Index: MSCI USA Select ESG Rating & Trend Leaders Index (the "Index")

The Sub-Fund is a financial product that promotes among other characteristics ESG characteristics pursuant to Article 8 of the Disclosure Regulation.

Information on how the Index is consistent with environmental, social and governance characteristics is contained under "Index Description".

Investment Objective

To track the performance of the Index.

Index Description

• General description of the Index

The Index is an equity index based on the MSCI USA Index representative of the large and mid-cap stocks of the US market ("Parent Index"). The Index is representative of the performance of stocks issued by companies with robust environmental, social and governance ("ESG") profile relative to their sector peers and/or which experienced a yearly improvement in these ESG profile. Companies whose products or activities have negative social or environmental impacts are excluded from the Index.

The Index is a net total return index, meaning that dividends net of tax paid by the index constituents are included in the Index return.

- Index currency: US Dollar

• Index Composition

The Index is constructed by applying a combination of values and climate changed based exclusions and a best-in-class selection process to companies in the Parent Index.

1. First, securities of companies involved in business activities as per MSCI ESG Research* including : alcohol, gambling, tobacco, civilian firearms, nuclear power, adult entertainment, genetically modified organisms, nuclear weapons, conventional and controversial weapons; fossil fuel, thermal coal, oil and gas or uranium are excluded;
2. The remaining companies are rated based on their ability to manage their ESG profile and trend in improving that profile and are assigned a score which determines their eligibility for inclusion in the Index:
 - Companies involved in a major ESG controversy as per MSCI ESG Controversy score** are excluded;
 - Companies that do not comply with the MSCI Combined Score*** eligibility are excluded.

Then, a best-in-class selection process is applied to the remaining eligible securities from the Parent Index. The Index targets sector weights consistent with those of the Parent Index. The methodology aims to include the securities of companies with the highest rankings as determined by reference to the criteria described below making up 50% of the market capitalization in each GICS sector of the Parent Index.

Securities are ranked based on the following criteria (in order):

- Combined ESG Score
- Current index membership (existing constituents above non-constituents)
- Industry adjusted ESG score
- Decreasing free float adjusted market capitalization

The Index is free float-adjusted market capitalization weighted and the cumulated free float adjusted market capitalization by GICS sector is overall proportional to the one of the Parent Index. Security weights are capped at 15% to mitigate concentration risk. In order to replicate the Index, the Sub-Fund may invest up to 20% of its Net Asset Value in shares issued by the same body. This limit may be raised to 35% for a single issuer when exceptional market conditions apply (for example where the weighting of the issuer in the Index is increased as a result of the issuer's dominant market position or as a result of a merger).

An iterative down weighting ensures that the securities with the highest carbon intensity and the lowest scores of board independence within the Index's selection universe are down-weighted to reduce their respective weighting in the Index. Please refer to msci.com for further information.

*Further details on MSCI ESG Research, on the business activities and screens, please refer to the Index methodology available on msci.com.

**MSCI ESG Controversies provides assessments of controversies concerning the negative environmental, social, and/or governance impact, please refer to msci.com for further information.

*** MSCI Combined ESG score is calculated by taking into account the company's MSCI ESG Rating and its MSCI ESG Rating Trend (yearly improvement or degradation of ESG ratings). MSCI ESG Rating methodology uses a rules-based methodology designed to measure a company's resilience to long-term, industry material ESG risks. It is based on extra-financial ESG key issues that focus on the intersection between a company's core business and the industry-specific issues that may create significant risks and opportunities for the company. The ESG key issues are weighted according to impact and time horizon of the risk or opportunity. The ESG key issues include for instance, but are not limited to, water stress, carbon emissions, labor management or business ethics. Please refer to msci.com for further information.

• Index Revision

The Index rebalancing is planned quarterly.

• Index Publication

The Index is calculated and published by MSCI ("MSCI").

The Index is calculated by MSCI using the official closing prices of the stock exchanges on which the component securities are traded.

The Index value is available via Bloomberg. At the date of the prospectus, the ticker is: NU718008

The performance tracked is the closing price of the Index.

The MSCI index methodology, composition, revision rules and additional information concerning the Index underlying components are available on msci.com

Management Process

The Sub-Fund is managed according to a passive approach and the exposure to the Index will be achieved through a direct replication, mainly by making direct investments in transferable securities and/or other eligible assets as further described below representing the Index constituents in a proportion extremely close to their proportion in the Index as further described in the section entitled "Replication Methods for Passively Managed Sub-Funds" of this Prospectus. With the exception of permitted investments in OTC option and swap financial derivative instruments (as further described in "Techniques and instruments on securities and Derivatives" below) and cash, the Sub-Fund's investments will be equity and Equity Linked Instruments which will be listed and traded on Regulated Markets.

The Sub-Fund integrates sustainability risks and takes into account principal adverse impacts of investments on sustainability factors in its investment process as outlined in more detail in section "Sustainable Investment" of this Prospectus and will not hold any securities of companies involved in the production or sale of controversial weapons, or companies in breach of international conventions on Human or Labor Rights, or companies involved in controversial industries: tobacco and coal as defined in "Replication Methods for Passively Managed Sub-Funds".

Tracking Error

The tracking error measures the volatility of the difference between the return of the Sub-Fund and the return of the Index. In normal market conditions, it is anticipated that the Sub-Fund will track the performance of the Index with a tracking error of up to 1%.

Techniques and instruments on securities and Derivatives

In order to deal with inflows and outflows and also with some equity local market specificities (including market access, liquidity or local tax issues); the Investment Manager may invest in futures, options and swaps which are referable to equities which are comprised in the Index or are otherwise consistent with the Sub-Fund's Investment Objective. In this instance, the Sub-Fund may hold deposits while maintaining full exposure to the Index

The Sub-Fund may enter into any efficient portfolio management techniques and instruments relating to transferable securities and money market instruments, such as securities lending arrangements and reverse repurchase and repurchase agreements for the purposes of efficient portfolio management as described and in compliance with the sections entitled "Techniques and Instruments on Securities Financing Transactions" and "Replication Methods for Passively Managed Sub-Funds" of this Prospectus. In particular, such techniques and instruments may be used in order to generate additional income for the Sub-Fund.

The maximum and expected proportions of the Sub-Fund's assets that may be subject to SFTs are disclosed in the table entitled "Use of Securities Financing Transactions and Total Return Swaps".

Base Currency : US Dollar

Investment Manager

Amundi Asset Management

The Sub-Fund promotes environmental characteristics as described in the Article 8 of the Disclosure Regulation. It is therefore required to disclose, according to Article 6 of the Taxonomy Regulation, information about the environmentally sustainable investments made. For the purpose of the Taxonomy Regulation, the Sub-Fund does not presently intend to be invested in investments that take into account the EU criteria for environmental sustainable economic activities. Therefore, as at the date of this Prospectus, 0% of the Sub-Fund's investments are invested in economic activities that qualify as environmentally sustainable under the Taxonomy Regulation.

The "do no significant harm" principle applies only to those investments underlying the Sub-Fund that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

More information on the Taxonomy Regulation and this sub-fund is available in the section 'Sustainable Investment' in the Prospectus.
