AMUNDI FUND SOLUTIONS ICAV SELECT INVESTMENT GRADE BOND - QI3 EUR QTD (D)

A Sub-Fund of AMUNDI FUND SOLUTIONS ICAV

ISIN code: (D) IE00BN2B2C76

This UCITS has appointed Amundi Ireland Limited, an entity part of Amundi group, as its Management Company

Objectives and Investment Policy

The Sub-Fund seeks to increase the value of investment and to provide income over the recommended holding period.

The Sub-Fund seeks to achieve its investment objective by investing mainly in Euro denominated Investment Grade corporate and government bonds (fixed or floating rate), that are listed or traded on a Permitted Market.

The Sub-Fund may invest up to 10% of its assets in Euro denominated Investment Grade Emerging Markets corporate bonds.

The maturity of the above listed instruments will be not longer than 10 years.

The Fund may also hold cash and instruments that may be readily converted to cash (including cash deposits, European treasury bills and government bonds, short-term corporate bonds, commercial paper, short term Money Market Instruments and certificates of deposit).

The Sub-Fund will not use derivatives.

Benchmark : The Sub-Fund is actively managed and is not managed in reference to a benchmark.

Management Process : The Sub-Fund integrates Sustainability Factors in its investment process as outlined in section "Overview of Responsible Investment Policy" in the Prospectus. The Investment Manager determines the investable universe for the Sub-Fund using an investment process which is based on a combination of a bottom up analysis of an issuer and its industry's fundamentals and a top-down analysis of macroeconomic developments to manage the overall portfolio risk.

The distribution share pays dividends quarterly.

The minimum recommended holding period is 3 years.

Investors may sell on demand on any business day in Ireland.

Risk and Reward Profile

The risk level of this Sub-Fund mainly reflects the market risk arising from investments in short term bonds denominated in Euro and issued by governments or assimilated entities and corporate entities as well as from its investment process.

Historical data may not be a reliable indication for the future.

Risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Your initial investment does not benefit from any guarantee or protection.

For un-hedged currency classes, exchange rate movements may affect the risk indicator where the currency of the underlying investments differs from the currency of the share class.

Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

- Credit risk: represents the risks associated with an issuer's sudden downgrading of its signature's quality or its default.
- Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact your portfolio valuation.
- Counterparty risk: represents the risk of default of a market participant to fulfil its contractual obligations vis-à-vis your portfolio.
- Operational risk: this is the risk of default or error within the different service providers involved in managing and valuing your portfolio.
- Emerging Markets risk : Some of the countries invested in may carry higher political, legal, economic and liquidity risks than investments in more developed countries.

The occurrence of any of these risks may have an impact on the net asset value of your portfolio.
